

Are you looking for a way to have a real impact on the lives of your fellow Treasure Valley residents? A gift to the United Way Community Fund is one of the most powerful gifts you can make. Here's why:

100% LOCAL

Your donation is invested exclusively in the Treasure Valley, working to improve the lives of people right here in your own community.

100% EFFICIENT

Every penny of every dollar you give goes directly to helping the community—no overhead is ever deducted. United Way's operating costs are underwritten by Corporate Champions, not individual donors.

100% ACCOUNTABLE

Every program that receives Community Fund money is reviewed annually for performance and must demonstrate measurable results from their work, as well as good financial management. Last year, local volunteers spent 2,700 hours ensuring your money is invested wisely.

100% OF HUMAN NEED

Your gift addresses the full spectrum of human need—whether it's emergency housing, relief from violence or treatment for substance abuse, one gift does it all.

100% CHANGE, NOT CHARITY

More than just funding emergency relief, however, United Way works directly and through partner agencies to address the root causes of need to help people get back on their feet permanently and create lasting change.

Thanks to Sheriff Gary Raney, Andrea can afford quality child care for her son Khota.

PLEASE GIVE.

With today's economic environment, more and more of your fellow Treasure Valley residents are struggling to meet basic needs. Your gift to the United Way Community Fund is the helping hand that can make a lasting difference in their lives—and in your community. It's the best way to help the most people.
